Profile

I design and build websites for Ghanaian brands from a studio in East Legon, Accra. The work covers marketing sites, catalogues, menus, and professional pages, usually in Next.js, TypeScript, and Tailwind CSS. I studied Information Technology at the University of Ghana and spent four years in Accra studios before founding PixelForge in 2022. I work in English and Twi.

SELECTED SKILLS

Interface design · HTML and CSS · TypeScript · React and Next.js · Tailwind CSS · Figma · Brand identity · Content structure

EXPERIENCE

Founder and lead developer — PixelForge, East Legon 2022 — Present

Design and build websites for Accra businesses, from the first shop visit to launch. Recent work includes a florist shop in Osu, a creative studio in Cantonments, and a class timetable for a wellness studio in Labone.

UI developer — Northstar Digital, Airport City 2019 — 2022

Built marketing sites and design-system components for hotels, professional firms, and NGOs. Led the front end of a donor portal used by teams across Greater Accra.

Junior designer — Bloom & Co. Studio, Osu 2018 — 2019

Designed product pages, lookbooks, and the first client websites I both designed and coded.

EDUCATION

BSc Information Technology — University of Ghana, Legon 2014 — 2018

Interactive systems, databases, and v
working in Accra.
